

# Study Medicine abroad with DIFC!

Studying a medical degree is the beginning of one of the most rewarding of career paths. If you have a passion for science and would like to make a positive impact to the lives of others, you should consider a career in medicine.

In partnership with NCUK, DIFC Ireland now offers international students the opportunity to study medicine at some of the most prestigious universities across Ireland, UK, Australia, the Caribbean and mainland Europe.

## What is the International Foundation Year Medicine Pathway?

The International Foundation Year Medicine Pathway is a 6 or 8-month course designed for international students, like you, to prepare you for embarking on your medical degree. You will gain the academic skills needed to progress to a medical degree by studying the following modules, plus the English for Academic Purposes module:

- Biology
- Chemistry
- Maths for Science

## Where can I progress to?

The Medicine Pathway will fully prepare you to study medicine at university, as well as providing you with options to progress to a range of medical-related degree courses including Pharmacy, Biomedical Science, Nursing, Physiotherapy and more!

Each University has its own application deadlines which you need to be mindful of when considering which DIFC intake to apply for.

## What is the admissions process?

Each university has its own admissions process, which DIFC's dedicated Placement Office will assist and guide you with. During the shortlisting process, universities will review your High School academic transcripts. Depending on your high school qualification, there may be some limitations as to which medical university partners you can apply to. Please contact DIFC for advice specific to your circumstances.

Note: There is no guarantee of progression to Medicine. Entry requirements listed above are not exhaustive and might change depending on the university. Please check with DIFC for more details.

Start your journey today with DIFC and progress to world-leading medical schools
